DETAILED ACTION
Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 27, 28, and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Nagano (US Re. 32,924).

Nagano discloses a bracket for a rear derailleur that include a base member, a chain guide, and a coupling mechanism coupled between the base member and the chain guide so that the chain guide moves laterally relative to the base member, wherein the bracket comprising: a first bracket body (1) comprising: a first upper mounting portion structured to attach to a rear dropout portion of a bicycle frame (see Fig 1); and a first lower mounting portion structured to extend over a first lateral side location of a rear derailleur when the first upper mounting portion is attached to the rear dropout portion (see Fig 1).

Re claim 28, the first upper mounting portion includes an opening structured to receive a wheel hub axle therethrough (see Fig 1).

Re claim 30, the first upper mounting portion is laterally offset from the first lower mounting portion (see Fig 1).

Allowable Subject Matter

3. Claims 1-26 are allowed.
4. Claims 29 and 31-38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 27-38 have been considered but are moot in view of the new ground(s) of rejection.
